

**SOLAR TOGETHER ESSEX**  
**GROUP BUYING SCHEME**  
**FOR SOLAR PANELS**

Dear Sir / Madam,

I am writing to ask for your support in promoting a new campaign which Essex County Council has recently launched to create a greener and more sustainable future for our county.

The campaign is called 'Solar Together Essex' – it is a scheme to help residents and businesses to get high-quality solar panels at a competitive price through the power of group buying, saving money on both installation and future energy bills.

Solar panels are not complex but buying a solar system can be daunting. 'Solar Together Essex' helps buyers through the process, keeping them informed at every stage and connecting them with trusted suppliers. Similar schemes run in the UK recently generated savings of 25% to 35% on the cost of a PV system.

Registration is free and there is no commitment. The more people that register, the better the deal should be for each household and business in Essex.

I have enclosed our campaign posters and would appreciate it if you are able to display them in your establishment/offices. If you have social media, please also share the campaign by following @essex\_cc on Twitter and 'EssexCountyCouncil on Facebook, and sharing our posts.

Should anyone approach you for information after seeing the posters, please refer them to the UK helpline 0800 048 86 39 or the website [www.essex.gov.uk/solartogether](http://www.essex.gov.uk/solartogether).

If you have any queries about the campaign, please visit our website or contact the helpline.

Thank you in advance for your support.

Yours Sincerely

Councillor Simon Walsh  
Cabinet Member for Environment & Waste

Essex County Council  
in partnership with Solar Together Essex
